## Job Description – Control Systems Engineer

---

RMGroup specialise in the supply of process and packaging machinery to various industries around the UK. The company has grown rapidly within the last few years and we are continually looking for aspiring individuals to join our dynamic team.

We are currently seeking to recruit a qualified electrician who is looking to branch out further into a control systems engineering role. If you have an expressed interest in robotics and automation, and are looking to progress further in this particular field then we would welcome your application.

### Desired Qualifications, Skills and attributes

- Minimum requirement of City & Guilds - Electrical Installation/Engineering, P1 & P2 or equivalent.
- Previous experience of working electrically on single and three phase, inverters, HMI interface, and control panels along with basic PLC knowledge.
- Potential candidates will receive training in programming for Industrial ABB Robots. Prior knowledge highly desirable but not necessary.

RMGroup supply and install packaging machinery across the country this role will involve travel and overnight stays.

**Hours:** +45 Hours, Monday-Friday.

**Salary:** Dependant on experience.

**Included:** Company Van, Fuel Card, Laptop, Uniform, Pension, Overnight Allowance, Accommodation and meals paid.

If you have any questions or would like to submit a CV please contact Rosie by telephone or email.
