Job Description – Electrical Engineer

RMGroup specialise in the supply of process and packaging machinery to various industries around the UK. The company has grown rapidly within the last few years and we are continually looking for aspiring individuals to join our dynamic team.

Successful Candidates will be responsible for:

- Wiring various process and packaging machinery prior to leaving our factory.
- Installation of packaging machinery on site, tracing cables back to control panel. All works to be completed prior to Programming engineers arriving on site.
- Responding to breakdowns fault finding and carrying out repairs to process packaging machinery.

Desired Qualifications, Skills and attributes

- Minimum requirement of City & Guilds - Electrical Installation P1 & P2 or equivalent.
- Previous experience of working electrically on single and three phase, inverters, control panels along with basic PLC knowledge.
- Compliance and due care attention paid to H&S standards. Ability to compile risk assessments and method statements. Previous qualifications desirable.
- Have excellent interpersonal skills and ability to establish and maintain customer relationships

RMGroup supply and install packaging machinery across the country this role will involve travel and overnight stays.

Hours: +45 Hours, Monday-Friday.

Salary: Dependant on experience.

Included: PPE, Uniform, Pension, Overnight Allowance, Accommodation and meals paid.
