Commissioning Engineer– PLC/Robotic Automation & Packaging machinery

RMGroup specialise in the supply of process and packaging machinery including robotic automation to various industries around the UK. The company continues to demonstrate rapid growth and continually seeks aspiring individuals to join the team.

On this occasion we are looking to recruit a commissioning engineer with proven industry experience. Whilst the role is home based, candidates must be flexible and available to work away at customer sites or at our factory HQ in Mid Wales.

Desired Skills and attributes

- Candidates must have the ability to modify programmes using relevant software for packaging and automation projects, including PLC/HMI programming.
- Experience of robot installation and commissioning essential. Proficiency with ABB IRC5/S4C+ programming desirable.
- Ability to modify PLC programme - Predominantly Siemens S7-1200 PLC
- Candidates will be involved in FAT prior to machinery dispatch to ensure successful commissioning based on customer requirements.
- Train operators on site with use of machinery following installation.
- Effective communication skills and good customer service.
- Efficient Team working skills in order to work alongside Project Manager, Compliance officer, Mechanical engineers and electricians to deliver the project as per customer specification.

Qualifications

- HND/Degree in Electrical, Electronic or Software Engineering or equivalent experience favourable.
- Desirable candidates would have prior experience working with ABB robots, possess accredited training certs, and Siemens PLCs.

RMGroup supply and install packaging machinery across the country this role will involve travel and some overnight stays.

Hours: Minimum 45 Hours per week.

Salary: Competitive salary dependant on experience.

Included: Laptop, Uniform, Company vehicle and Pension provided

If you have any questions or would like to submit a CV please contact James by telephone or email.
